

# HOUSEPLANTS FOR HOT SPOTS

---

Sunny windowsills can be fairly harsh on many houseplants. Consider using one of the following plants for hot, full sun spots, typically your south or west facing windows. Some of these do require fairly regular water, while others can get by with less frequent watering.

---

**Cactus**

**Succulents (most)**

**Asparagus Fern**

**Aloe vera**

**Jade Plant (*Crassula argentea*)**

**Croton**

**Gardenia**

**Hibiscus**

**Hoya**

**Kalanchoe**

**Oxalis**

**Peperomia**

**Snake Plant (*Sansevieria*)**

**Wandering Jew (*Tradescantia*, *Zebrina*)**

**Yucca**
