

# BLUEBERRY VARIETIES 2017

Variety	Ripening Season	Berry Size	Flavor	Fall Color	Height	Description
Bluecrop	Mid	Large 	Classic blueberry, sweet and spicy	Red 	4 to 6 feet	Open, medium to large berry clusters. Tart if picked early, spicy when fully ripe. Good all around use berry. Bears for over one month.
Bluegold	Mid	Large 	Flavorful, sweet	Yellow 	4 to 5 feet	Large, easy to pick clusters of sky blue fruit. More compact form with great golden yellow canes and fall color.
Blueray	Mid	Large 	Sweet, slightly tart; aromatic medium blue berries	Red 	5 to 7 feet	Productive plant with tight berry clusters. Excellent quality berries. Reliable old-time berry.
Bountiful Blue	Mid	Med 	Sweet & juicy	Semi-ever-green	3 to 4 feet	Self-fertile; good choice for containers; compact & rounded habit, pretty fall highlights.
Chandler	Mid to late	Very Very Large 	Full, excellent blueberry flavor	Red 	5 to 7 feet	Largest berries with excellent flavor. Ripens over a long period. Developed by the USDA and tested in Oregon.
Darrow	Late	Very Large 	Slightly tart, excellent robust	Red 	5 to 7 feet	Firm fruit, tart until completely ripe, then has excellent flavor. Loose fruit cluster. Consistently productive, great for PNW.
Draper	Mid	Large 	Crisp & sweet	Yellow 	3 to 4 feet	Newer variety with easy to pick berries, very productive; smaller size bush.
Duke	Early	Large 	Firm, crisp, sweet fruit	Yellow 	4 to 6 feet	Medium to large size, firm, crisp, light blue berries of good quality. Large, easy to pick clusters with snappy flavor. Used for fresh market and processing.
Earliblue	Very Early	Med Large 	Flavorful, sweet and juicy	Red 	4 to 6 feet	Long, open, loose clusters of firm, light blue berries. Excellent full flavor, mild and sweet. Red canes and red fall color, makes a good landscape plant.
Elliott	Very Late	Med 	Quite tart, strong blueberry flavor	Yellow 	4 to 5 feet	Heavy producer, slower growing bush. One of the latest ripening to extend the berry picking season.

Variety	Ripening Season	Berry Size	Flavor	Fall Color	Height	Description
Jersey	Late	Med 	Sweet berries, good for baking	Yellow 	5 to 7 feet	Old, reliable variety with good soil and disease tolerance. Easy to grow and a good producer.
Legacy	Late	Med 	Robust, sweet flavor	Red 	4 to 6 feet	High flavor rating in USDA trials. Vigorous & productive, May keep its leaves thru winter, with fall color highlights.
Liberty	Late	Large 	Robust, juicy & sweet	RedOrg 	7 to 8 feet	Firm berries are easy to pick. Vigorous grower with high yields.
Northland	Mid	Med 	Sweet, mild flavor	Yellow 	4 to 5 feet	Extremely productive, high yields. High sugar content; great in jams and for baking. Easy to grow and adaptable.
Patriot	Early	Large 	Firm, good sweet flavor	Red to Orange 	3 to 5 feet	Large to very large dark blue fruit. Consistent, heavy producer, vigorous plant with fiery orange to red fall color. Adaptable and easy grower.
Peach Sorbet	Mid	Med 	Sweet flavor	Purple 	1 to 2 feet	Another dwarf great for containers. Fruits on new canes. Good ornamental plant with nice foliage color.
Spartan	Early	Very Large 	Tops in flavor, robust firm fruit	Yellow 	4 to 6 feet	Very large, firm, bright blue berries. Superb for eating fresh or in pies. Heavy producer, great variety. Easy to pick. Resistant to mummyberry.
Sunshine Blue	Mid to Late	Med 	Rich, sweet flavor	Semi-ever-green	3 to 4 feet	Self-fertile. Abundant crops. Great choice for containers. Nice ornamental plant with pretty pink blooms.
Toro	Early to Mid	Large 	Mildly sweet, very good flavor	Red 	4 to 6 feet	Newer variety with very large berries in tight clusters. Very good flavor and an extremely productive variety. Nice ornamental value as well. Easy to pick.
