

BLUEBERRY VARIETIES 2018

| Variety | Ripening Season | Berry Size | Flavor | Fall Color | Height | Description |
|-------------------|--------------------|---------------|--|-------------------------|----------------|--|
| Bluecrop | Mid | Large | Classic blueberry, sweet and spicy | Red | 4 to 6 feet | Open, medium to large berry clusters. Tart if picked early, spicy when fully ripe. Good all around use berry. Bears for over one month. |
| Bluegold | Mid | Large | Flavorful, sweet | Yellow | 4 to 5 feet | Large, easy to pick clusters of sky blue fruit. More compact form with great golden yellow canes and fall color. |
| Blueray | Mid | Large | Sweet, slightly tart; aromatic me- dium blue berries | Red | 5 to 7 feet | Productive plant with tight berry clusters. Excellent quality berries. Reliable old-time berry. |
| Bountiful Blue | Mid | Med | Sweet & juicy | Semi- ever- green | 3 to 4 feet | Self-fertile; good choice for containers; compact & rounded habit, pretty fall highlights. |
| Darrow | Late | Very Large | Slightly tart, excellent robust | Red | 5 to 7 feet | Firm fruit, tart until completely ripe, then has excellent flavor. Loose fruit cluster. Consistently productive, great for PNW. |
| Draper | Mid | Large | Crisp & sweet | Yellow | 3 to 4 feet | Newer variety with easy to pick berries, very productive; smaller size bush. |
| Duke | Early | Large | Firm, crisp, sweet fruit | Yellow | 4 to 6 feet | Medium to large size, firm, crisp, light blue berries of good quality. Large, easy to pick clusters with snappy flavor. Used for fresh market and processing. |
| Earliblue | Very Early | Med Large | Flavorful, sweet and juicy | Red | 4 to 6 feet | Long, open, loose clusters of firm, light blue berries. Excellent full flavor, mild and sweet. Red canes and red fall color, makes a good landscape plant. |
| Elliott | Very Late | Med | Quite tart, strong blueberry flavor | Yellow | 4 to 5 feet | Heavy producer, slower growing bush. One of the latest ripening to extend the berry picking season. |
| Jersey | Late | Med | Sweet berries, good for baking | Yellow | 5 to 7 feet | Old, reliable variety with good soil and disease tolerance. Easy to grow and a good producer. |

| Season | Berry Size | Flavor | Fall Col- or | Height | Description | | | | | |
|-----------------------------|---|--|--|--|---|--|--|--|--|--|
| Late | Med | Robust, sweet flavor | Red | 4 to 6 feet | High flavor rating in USDA trials. Vig- orous & productive, May keep its leaves thru winter, with fall color highlights. | | | | | |
| Mid | Med | Firm, sweet & juicy | Red | 2 to 3 feet | The same exceptional flavor of a wild blueberry. Very hardy in the PNW. Half high. Self-pollinating. | | | | | |
| Mid | Med | Sweet, mild & juicy | Red | 2 to 3 feet | One of the earliest producing, vigorous cultivars. Good for preserves, baking, cooking and fresh eating | | | | | |
| Mid | Med | Sweet, mild flavor | Yellow | 4 to 5 feet | Extremely productive, high yields. High sugar content; great in jams and for baking. Easy to grow and adaptable. | | | | | |
| Early | Large | Firm, good sweet flavor | Red to Orange | 3 to 5 feet | Large to very large dark blue fruit. Con- sistent, heavy producer, vigorous plant with fiery orange to red fall color. Adaptable and easy grower. | | | | | |
| Mid | Med | Sweet flavor | Purple | 1 to 2 feet | Another dwarf great for containers. Fruits on new canes. Good ornamental plant with nice foliage color. | | | | | |
| Early | Med | Firm, rich & tangy | Red | 4 to 6 feet | Adapts to many soil types and climates. High yielding and beautiful burgundy fall color! | | | | | |
| Early | Very Large | Tops in flavor, robust firm fruit | Yellow | 4 to 6 feet | Very large, firm, bright blue berries. Superb for eating fresh or in pies. Heavy producer, great variety. Easy to pick. Resistant to mummy berry. | | | | | |
| Mid to Late | Med | Rich, sweet flavor | Semi- ever- green | 3 to 4 feet | Self-fertile. Abundant crops. Great choice for containers. Nice ornamental plant with pretty pink blooms. | | | | | |
| Early to Mid | Large | Mildly sweet, very good flavor | Red | 4 to 6 feet | Newer variety with very large berries in tight clusters. Very good flavor and an extremely productive variety. Nice ornamental value as well. Easy to pick. | | | | | |
